And Head Noises

Persons suffering from catarrhal deafness, or who are growing hard of hearing and have head noises, will be glad to know that this distressing afficition can usually be successfully treated at home by an internal medicine that it many instances has effected complete relief after other treatments have failed. Sufferers who could surrely hear have nad their hearing restored to such an extent that the tick of a watch was plainly addible seven or early inches away from either ear. Therefore, if you know of someone who troubled with head noises or extarrhal deafness, the prescription can be prepared at home and it to them and you may have been the means of saving some poor sufferer perhaps from total deafness. The prescription can be prepared at home and is reace as follows:

Secure from your druggist I can purmit (rouble strength). Take this home and alittle granulated sugar; stir until dissolved. Take one tablespoonful four times a day.

Parsoint is used in this way not only to reduce by toole attion the inflamma.
